NAVITHA J

Java Developer

✉ navithajaisankar2005@gmail.com　　📞 +91-8825822479　　📍 Mayiladuthurai

SUMMARY

Final-year Computer Science Engineering student specializing in Java Full Stack Development. Strong foundation in Core Java, Spring Boot, JDBC, and REST APIs. Hands-on experience in building scalable backend applications. Seeking an entry-level Java Developer role to apply technical expertise and grow professionally.

EDUCATION

B.E – Computer Science and Engineering
Mahendra Engineering College　　　　　　　　2026
8.70 CGPA

HSC
St. Paul's Girls Higher Secondary School　　　　2022
82%

SSLC
St. Paul's Girls Higher Secondary School　　　　2020
80%

CERTIFICATIONS

Java Foundation Certification – Infosys Springboard
Successfully completed the course demonstrating strong proficiency in Core Java concepts, including OOPs, data types, control structures, exception handling, and collections.

Java Backend Development Certification – Login360 Institute
Gained hands-on experience in Core Java, JDBC, Spring Boot, RESTful APIs, and database integration.

IBM Full-Stack JavaScript Developer Professional Certification – Coursera
Hands-on experience in front-end, back-end, cloud, and full-stack web development.

AWS Academy Introduction to Cloud Certification – AWS Academy
Foundational knowledge of cloud computing concepts, AWS services, and security fundamentals.

KEY ACHIEVEMENTS

1st Prize – Play with Logic
Secured first prize in a logical reasoning competition at Nehru Engineering College, Coimbatore.

PROJECTS

Online Virtual Try-On Shopping Platform
- Developed a Java Spring Boot–based e-commerce platform with virtual try-on functionality.
- Implemented secure authentication and interactive product visualization.

Freelancer Marketplace Platform
- Built a full-stack freelancer marketplace using Java Spring Boot.
- Implemented authentication, job posting, bidding, and secure payment workflow.

Personalized E-Learning Platform
- Developed a personalized e-learning system using Java, Spring Boot, and Hibernate.
- Added real-time progress tracking and dynamic content delivery.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript
Backend: Java, Spring Boot, JDBC, RESTful APIs
Databases: MySQL, PostgreSQL
Tools: Git, GitHub, VS Code, Eclipse

INTERNSHIP EXPERIENCE

Java Developer Intern – SmartInternz
- Developed backend modules using Core Java, JDBC, and Spring Boot for real-world applications.
- Built backend components using MVC architecture.

Salesforce Developer Virtual Intern – SmartBridge
- Worked with Apex and Lightning Web Components.
- Automated CRM workflows and business processes to improve efficiency.

Business Analytics Intern – Qlik
- Built dashboards and analyzed datasets for insights.
- Analyzed datasets to generate insights for data-driven decision making.
