EDUCATION

SSLC
St.Pauls Girl's Higher Secondary School
📅 2020

HSC
St.Pauls Girl's Higher Secondary School
📅 2022

B.E - Computer Science and Engineering
Mahendra Engineering College
📅 2026

CERTIFICATION

Java Foundation Certificate – Infosys Springboard
Successfully completed the course, demonstrating proficiency in Core Java concepts, including OOPs, data types, control structures, exception handling, and collections.

Java Backend Development Certification – Login360 Institute
Gained hands-on experience in Core Java, JDBC, Spring Boot, RESTful APIs, and database integration, strengthening backend development and problem-solving skills.

IBM Full-Stack Java Developer Professional Certificate – Coursera
Gained expertise in Java, Spring Boot, RESTful APIs, front-end technologies, database management, microservices, and cloud deployment, developing full-stack applications with real-world project experience.

KEY ACHIEVEMENTS

1st Prize -Play with Logic
Secured 1st prize in the "Play with Logic" competition at Nehru Engineering College, Coimbatore, showcasing strong problem-solving and logical reasoning skills.

SUMMARY

Final-year CSE student with strong skills in Java Full Stack Development (Java, Spring Boot, Hibernate, REST APIs, HTML, CSS, JavaScript, MySQL). Experienced in developing academic and real-time projects with focus on clean code and problem-solving. Eager to contribute as a Java Developer in a dynamic organization.

PROJECTS

1. Freelancer Marketplace
Developed a full-stack freelancer marketplace using Java Spring Boot for backend and HTML, CSS, JavaScript for frontend, implementing features like user registration, project posting, bidding, and management for a smooth user experience.

2. Online Virtual Try-on Shopping Platform
Built a web-based shopping platform using Java Spring Boot with integrated TensorFlow.js for real-time virtual try-on. Enabled secure user authentication, interactive product visualization, and an enhanced user experience.

SKILLS

- Core Java and Spring Boot
- RESTful APIs and servlets
- SQL and JDBC
- Exception handling
- Java persistence API
- Java annotations and generics
- HTML
- CSS
- JavaScript
- Maven build tool
- PostgreSQL
- VS Code
- Eclipse
- Version control (GitHub)

INTERNSHIPS

💎 Salesforce Developer Virtual Internship
Smart Bridge & AICTE | May 2024-June 2024

Acquired practical experience in Apex programming, Lightning Web Components (LWC), process automation, debugging, and Salesforce security. Achieved Salesforce Super Badges: Apex Specialist, Process Automation Specialist, and Developer Super Set, demonstrating hands-on expertise.

💎 Java Developer Internship
Spartton Tech Solution

Gained hands-on experience in Core Java, JDBC, and Spring Boot.
Developed a strong understanding of Java programming principles and database connectivity.
Built and tested applications using Spring Boot for back-end development.
